Colonel Eisenhauer;

Reviewed the draft documentation reference the Coyote Island Permit "requiring" an EIS with Shawn, Mike and Steve today. With some minor changes, the document is defensible and will be ready for

signature as scheduled. Also discussed the NWD and HQ staff call which took place today -- Shawn and Mike tell me there is a clear difference between HQ and NWP as to the need for an EA prior to an EIS. However, as we are on firm ground, we need not alter our approach which as I understand it -- is recognized by HQ.
